It is also allowed to link to the download page from websites and communities. If only we could, we surely would! On the other hand, using file can actually save you money. Why pay storage fees for a file that you just wanted to send to a friend or colleague? Also, many team chat apps have limits to the size of files that can be transferred within their apps. There are no restrictions on the number of times a file can be downloaded. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between your computer or phone and our servers, then from our servers to your friends device. So try our free and simple filehosting service now. The cost of that data transfer is covered by your internet service or the data plan on your phone. Simply upload yourfile and share the link. Using file, you can circumvent those limits without paying to upgrade your team chat service. Alternatively you can choose to share yourdownload links on blogs, forums and social networking sites. Our service is completely free for everyone. Just upload the file you want to share with yourfriends and we send you a download link to your file.
